

LEARNING SERVER

CAREER DEVELOPMENT COLLECTION

FEATURES

- External Training History
- Groups
 - Departments
 - Job Titles
 - User Locations
 - User Categories
 - AD Groups

- ✓ Assign users to various user groups
- ✓ Auto enrollment to courses via Job Titles
- ✓ Input learners' external training into transcripts

Group Users and Set Their Path

The Career Development Collection contains grouping functionality to assign sets of users to courses. Job Titles can be associated with courses which are automatically assigned to a user when they become part of that Job Title. Other features include Departments, User Locations, User Categories, and External Training History.
